“

It's really nice to hear about business development directly from a lawyer. Perspectives can differ across industries, but as the trainer is in the legal industry, it was so helpful to receive such relevant advice.”

LawNet

We have worked with Professional Training UK Limited since 2021.

They delivered our first Associate Development Programme which received a high level of interest from delegates as well as excellent feedback. As a result of this, we are working with Professional Training to continue delivery of the Associate Development Programme as well a range of stand-alone courses to assist our members in developing the skills and behaviours of their teams.

Professional Training have quickly become a valued partner for LawNet. They take time to understand the needs of our members, the strategic objectives of our learning programme and consistently deliver training of the highest quality. Their trainers are experienced and knowledgeable and have the skills to run highly interactive, engaging training delivering practical guidance and tips that our delegates can immediately use in their day-to-day work.

I have absolutely no hesitation in recommending Professional Training. They have added significant value to our learning programme which has been a real benefit for our members.

Gill Jennings & Every LLP

I have been using Professional Training UK Limited (PT) as my training provider for several years and have brought them with me to my new organisation, Gill Jennings & Every LLP.

PT have delivered a variety of sessions for our Partners to a consistently high standard. Their trainers are always engaging, facilitating participation and interaction.

We are delighted to have launched their PLATFORM programme for our senior associates and those recently promoted to Partner. The first session, 'Performance', received an average feedback score of 4.7 out of 5.

Our delegates are looking forward to the second session and building relationships with the trainer and each other over the next year.

PT will also be running their THRIVE programme for our Associates starting in September.

My team have always found PT to provide excellent customer service, responding quickly to queries and offering further information when requested.
